LAYLA ANBER

Computer Engineer

☎ +962789927307 　 @ laila.anber8@gmail.com 　 ⚲ Aqaba, Jordan

SUMMARY

Computer Engineering student with experience in web development and software engineering. Familiar with HTML, CSS, JavaScript, React.js, and MongoDB, with a focus on creating efficient and user-friendly applications. Seeking to apply technical skills and expand knowledge through a software development internship.

EXPERIENCE

Volunteer

University of Jordan　📅 10/2020 - 10/2023　⚲ Amman, Jordan

- Supported engaging, and smooth-running university events by helping with organization and planning.

EDUCATION

Bachelor's in Computer Engineering

University Of Jordan　📅 2019 - 2025　⚲ Amman, Jordan

PROJECTS

💎 CSAH, [Course Selection Advisory Hub] - Graduation project

Developed the Course Selection Advisory Hub (CSAH), a dynamic web platform that provides students with personalized course schedules using algorithms optimized for workload distribution and learning effectiveness. The platform integrates student feedback and offers insights to enhance academic performance and reduce stress.

SKILLS

Teamwork And Collaboration, Time Management, Problem-Solving Abilities, Computer Skills, Web Development, Algorithm Design, Continuous Improvement
